

Jesun Ahmad Ushno

AI Engineer & Data Specialist

Toronto, ON | jesunahmadushno@gmail.com | github.com/JesunAhmadUshno | linkedin.com/in/jesunahmadushno

SUMMARY

AI Engineer and Data Specialist building applied ML systems, RAG pipelines, and data platforms. Published ML researcher. Founder of Jesun.Ai; builder of Jesun.Code, an open-source programming language.

EXPERIENCE

Gallea Ai, Toronto - AI Engineer & Data Specialist | Aug 2026 to present

- Applied machine learning and retrieval-augmented generation (RAG) pipelines; data crawling, cleaning, and quality sealing.

KPMG Bangladesh, IT Advisory - Officer to Consultant | Apr 2023 to Nov 2024

- Shipped 20+ Power Automate workflows and 20+ Power BI dashboards; led 5+ ISO 27001 audits across banking and healthcare.

EDUCATION

MSc Data Analytics, University of Niagara Falls Canada | Jun 2026, Graduated With Distinction

BSc Computer Engineering, American International University-Bangladesh (AIUB) | 2018 to 2023

RESEARCH

Two peer-reviewed papers, AIP Conference Proceedings (2023): wavelet and neural network based fabric defect detection; elitist particle swarm optimization with mutation and adaptive inertia (DOI: 10.1063/5.0148658). ORCID 0000-0002-6070-9025.

PROJECTS

- **Jesun.Code** - own programming language (v0.6.0, open source): plain-English syntax, full Python ecosystem access, AI agent loops. 220/220 tests green.
- **Open source** - 30+ public repositories (2020 to 2026): PRISM, NoPara, TriDrop, SonicClear, BigFish swarm orchestrator, PulseKey.

SKILLS

Languages: Python, TypeScript, SQL, Java **Frameworks:** Flask, FastAPI, React, Next.js, Tailwind **ML/Data:** Pandas, scikit-learn, TensorFlow, Pyodide

Cloud: GCP, Azure, AWS **BI/Automation:** Power BI, Power Platform (Power Automate, PowerApps)
